Transformative learning - Wikipedia
Transformative learning, as a theory, says that the process of "perspective transformation" has three dimensions: psychological (changes in understanding of the self), convictional (revision of belief systems), and behavioral (changes in lifestyle). Transformative learning is the expansion of consciousness through the transformation of basic worldview and specific capacities of the self.

The Transformed Learning Theory: What eLearning
Aug 19, 2016 · The Transformed Learning Theory, which was first introduced by Jack Mezirow [1], is based on the principle that personal experience is an integral part of the learning process. It suggests that a learner's interpretation of the experience creates meaning, which leads to a change in the behavior, mindset, and beliefs.
