Shaping the Upper Canadian Frontier Society And Culture In Trent Valley

This is a significant contribution to the growing body of work on Canadian environmental history. The book presents a history of the environmental and cultural development of Trent Valley, the center of the North American bison Empire. It is based on a synthesis of documentation from the eighteenth through the twentieth century that has been largely overlooked in more recent studies.

The book provides a comprehensive overview of the environmental and cultural development of Trent Valley, including the history of the bison Empire, the settlement of the area, and the impact of human activities on the natural environment. It also includes a detailed analysis of the social and economic factors that have shaped the region over time.

The book is an important contribution to the field of Canadian environmental history, and it will be of interest to scholars and students of history, environmental studies, and related disciplines. It is a valuable resource for those interested in the history of the bison Empire and the development of the Trent Valley region.
