Beyond Sovereignty: Issues for a Global Agenda-Maryann Cusimano Love 2010-01-01 BEYOND SOVEREIGNTY: ISSUES FOR A GLOBAL AGENDA examines the pressing global issues that countries cannot solve alone. Author Maryann Cusimano Love helps readers put the subjects of today's headlines -- such as global poverty and debt, the environmental crisis, terrorism, disease, WMD proliferation, international crime, drug trafficking, and human trafficking -- into the larger context of globalization. Love addresses the challenges to globalization, the rise of non-state actors, the future of the state and global governance, and the difficulties of managing cross-border problems in a world of sovereign states. Throughout, the author argues that since global challenges go beyond borders, the solutions to these challenges are to be found beyond sovereignty. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Global Agenda for Social Justice-Muschert, Glenn W. 2018-08-15 The Global Agenda for Social Justice provides accessible insights into some of the world’s most pressing social problems and proposes international public policy responses to those problems. Written by a highly respected team of authors brought together by the Society for the Study of Social Problems (SSSP), chapters examine topics such as criminal justice, media concerns, environmental problems, economic problems, and issues concerning sexualities and gender. They offer recommendations for action by governing officials, policy makers, and the public around key issues of social justice. It will be of interest to scholars, practitioners, advocates, and students interested in public sociology, the study of social problems and the pursuit of social justice.

A Global Agenda- 1996

Throughout, the author argues that global issues go beyond borders?and therefore solutions must also go beyond sovereignty.

A Global Agenda (majalah)- 1991

Anatomy of the Global Agenda-Michael W Howell 2019-07-20 Anatomy of the Global Agenda cuts to the heart of the political issues today using only facts and no conspiracy theories. Volume One breaks down the centralized power structure that the global elites have been constructing for centuries. In the first of a three-part series, we see how the stage was set up to overthrow sovereign nations and their people. Using secret societies such as the Skull and Bones Society and Bohemian Grove coupled with unregulated think tanks like the Council on Foreign Relations and the Trilateral Commission the Global Agenda is in full force. Behind the wave of tyranny infiltrating the political processes today are a small group of international bankers and special interest corporations that are writing the laws and policies of the Republic. An oligarchy operating above all nation's laws, courts, and oversight leading the global population to a nefarious end game of their self greed and our destruction. From behind-closed-doors, strategies like Cloward-Piven's economic plan to collapse America from within begin to take shape. The bases for the Global Agenda is outlined in Karl Marx's Communist Manifesto starting with the ten planks and ending with the abolishing of property rights. The proponents of the Global Agenda are the non elected officials that long ago bought our Congress, pharmaceutical industry, took control of the education system, and funding both sides of every major war. A nation that once manufactured weapons for war is now manufacturing wars for profit. Lead by a robust Military-Industrial Complex to force their policies globally and a police state here at home to corral the herd, the New World Order, one-world government’s grasp tighten. Learn how through a centralized power they are able to deceive and manipulate trade policies, the world’s resources, and keep us in never-ending undeclared wars. Longtime political writer Michael W. Howell takes you on a step-by-step course of mystery and intrigue as he shows you the inner workings and plans that the leaders have for the world. As a speaker, lecturer, writer, and policy analyst Michael’s incredible ability to do systematic and thorough research, combined with his real-world experience, make him a popular guest on major radio and internet outlets.

A Global Agenda-James Truah 2011-08-01 A Global Agenda is a compilation of essays by academics, policy experts, United Nations experts and journalists on the most important geopolitical issues in the world today. It is aimed at academics and the foreign affairs community.

Our Common Agenda - Report of the Secretary-General-United Nations 2021-09-10 On the seventy-fifth anniversary of the United Nations, the world has faced its biggest shared test since the Second World War in the coronavirus disease (COVID-19) pandemic. Yet while our welfare, and indeed the permanence of human life, depend on us working together, international cooperation has never been harder to achieve. This report
answers a call from UN Member States to provide recommendations to advance our common agenda and to respond to current and future challenges. Its proposals are grounded in a renewal of the social contract, adapted to the challenges of this century, taking into account younger and future generations, complemented by a new global deal to better protect the global commons and deliver global public goods. Through a deepening of solidarity—at the national level, between generations, and in the multilateral system—Our Common Agenda provides a path forward to a greener, safer and better future.

**Getting to the 21st Century** - David C. Korten 1990 - A Limited Vision

**Clearing the Air** - Hilary F. French 1990 This volume investigates the many issues associated with air pollution. The author takes a look at the worldwide health threats that are caused by poor quality air. She continues by examining the toll taken on the Earth’s environment due to human-created air emissions. She discusses methods to reduce pollutants in the atmosphere, and also state of politics as it pertains to air quality; she also offers a list of things that will need to be done to checked the problem of increased air pollution.

**Growth in a Time of Change** - Hyeon-Wook Kim 2020-02-25 Growth in a Time of Change: Global and Country Perspectives on a New Agenda is the first of a two-book research project that addresses new issues and challenges for economic growth arising from ongoing significant change in the world economy, focusing especially on technological transformation. The project is a collaboration between the Brookings Institution and the Korea Development Institute. Part I of the book looks at key elements of change from a global perspective. It analyzes how technological change, shifts in investment, and demographic transition are affecting potential economic growth globally and across major groups of economies. The contributors explore possible scenarios for the global economy as the digital revolution drives rapid technological change, including impacts on growth, jobs, income distribution, trade balances, and capital flows. Technology is changing the global configuration of comparative advantage and globalization increasingly has a digital dimension. The implications of these developments for the future of sectors such as manufacturing and for international trade are assessed. Part II of the book addresses new issues in the growth agenda from the perspective of an individual major economy: South Korea. The chapters in this section analyze how macroeconomic developments and technological change are influencing the behavior of households and firms in terms of their decisions to consume, save, and invest. Rising income and wealth inequalities are a major concern globally. Against this backdrop, trends in the labor income share and wage inequalities in South Korea are analyzed in terms of the role played by technology, industrial concentration, shifts in labor demand and supply, and other factors. Throughout the book, the contributors, in their analysis of both global and Korea-specific trends and prospects, place emphasis on drawing implications for policy.
